Medicor HOT TIP!-Spokane County Medical Society-

To All Medicor Registered Users

Try this quick way to search Medicor Databases. **QuickSearch** is the easiest way to search for information in a pre-defined set of "QuickSet" databases.

Here's How To Do It

To access, choose **QuickSearch** in Medicor's main search menu or [click here](#) to go directly to QuickSearch.

- **Select one of the ready-made sets by clicking on the radio button.** If you are unfamiliar with your library's database collection or for a quick answer to your question, limit your search to **(1) Full-Text Journals Only**, which searches your library's electronic journal content.
- Clicking on a **Quickset** name will show you what databases it includes. Click the information icon for more details or click the database name to go directly to the database's Web site.
- Enter a term or terms in the search box using either **Simple** or **Advanced** Search.
- Click "GO" to start the search.
- Once Medicor has finished searching, the **Search Results** list is displayed. You can browse through this results list in one of three views: **Table View**,

Brief View or **Full View**.

- **The first 30 results** are displayed in order of relevance. You can also sort by author, title, year, and database name.
- Click the title of the record for detailed information.
- Click the database name to go to the database's Web site.
- Click the shopping cart icon to save a record in your basket.
- Your basket is a temporary storage for records that you find interesting. You can later move records from the basket to another **eShelf** folder, save records to a disk or email them.
- Click the red **SFX** symbol to access full text of articles (if available) or your library's document delivery service.

As always, please call or email if you need help, have a question, or would like to schedule a personal training session.
